

### The Glass Oven Door

is the latest and greatest improvement of the wonderful Stewart Range. You can now see the exact condition of the contents of a Stewart oven, without troubling to open the door or delaying the cooking. Just as you can instantly see the exact temperature by a glance at the new Stewart oven thermometer.

And how you do save food and fuel in the quickly, evenly heated Stewart oven, aided by the perfectly controlled draft and properly proportioned Stewart fire-box! 'Twill need but the permanently polished top and convenient ash chute to basement to gladden your heart that you own a Stewart range.

### Nothing Can Keep Fresh After It Is Cut Up

You can't expect the chopped-up tobacco that comes in packages to be *fresh*, because it has been *chopped up too long a time*. Most of the natural moisture and flavor escapes from the small particles of tobacco *before* they are put in the package. By the time you smoke them, they are so dry that they burn fast and bite your tongue.

All the flavor and fragrance of the tobacco is *pressed into* the Sickle Plug and *held there* by nature's own covering—the natural leaf wrapper. When you whittle a pipeful off the plug you get *fresh* tobacco—slow-burning, cool-smoking, rich and sweet.

You don't pay for a package—don't waste any tobacco—and get *more tobacco* for your money. Buy some Sickle at your dealer's today. You'll find the Sickle way is the *only* way to get a *satisfying* smoke.
